

CREATOR BUNDLE

HOOKUP GUIDE

Congratulations on your purchase of the Creator Bundle!

This handy kit has all of the key components you need to record and stream with professional studio sound. The diagram below will help you get everything hooked up.

The **EM-USB** microphone is connected directly via USB-C ❶ to your computer, for a full computer setup guide, make sure to dive into the **EM-USB** manual.

For maximum monitoring flexibility, connect the phones output ❷ from the microphone to the 1/8" input on the **CR-3X** monitors with the supplied cable. You can then connect your snazzy new **MC-100** headphones to the front phones out ❸ on the front of the monitors.

When the headphones are connected, the monitors will mute until you disconnect the headphones.

Want to get loud? Visit **Mackie.com** for all of your loudspeaker needs. From portable battery-powered speakers to line arrays, we've got you covered.

Have questions? Get in touch with us at [Mackie.com/support](https://www.mackie.com/support).
