

PROFX10GO

10-CHANNEL BATTERY-POWERED MIXER

Mackie ProFX10 GO is a professional analog mixer and USB-C audio interface that can run on a rechargeable, swappable battery for up to 8 hours, so you're always ready to mix on the GO. Unplug and never miss a beat. Take advantage of the incredibly low-noise, high-headroom performance of award-winning Onyx™ preamps, tone-shaping EQ, analog compression, GigFX+™ effects and three USB recording modes. Connect your phone via Bluetooth® to play music, perform over backing tracks or do a live stream. ProFX10 GO gives you the zero-compromise Mackie analog mixing experience you need for any remote gig or high-stakes event.

PROFX10GO

10-CHANNEL BATTERY-POWERED MIXER

SWAPPABLE, RECHARGEABLE GB-10 BATTERY

- Includes GB-10 rechargeable battery for up to 8 hours of mixing and recording, miles from a power outlet
- The battery recharges whenever the mixer is plugged into power, or you can recharge it outside the unit, so it's always good to GO
- Battery also serves as an excellent backup when you are short on power outlets, or working a shady venue with questionable power
- When you're out of juice, swap out the battery with a spare (sold separately) for double the battery life
- All the bells and whistles of a professional Mackie mixer, including Onyx™ preamps, no longer chained to the wall
- A new level of premium battery-powered mixing for mobile DJs, remote event producers or venues with limited power

CUSTOMIZABLE GIGFX+ EFFECTS

- High-resolution GigFX+™ effects engine includes reverbs, delays, choruses and more
- Full-color LCD display for editing and saving effects presets

BI-DIRECTIONAL BLUETOOTH®

- Connect your phone or tablet via the dedicated Bluetooth® channel
- Send and receive audio wirelessly
- Play songs or perform over backing tracks
- Stream your gig or event live on Twitch, YouTube or Instagram with your phone
- Mix Minus lets you take phone calls through the mixer without the caller hearing themselves

USB RECORDING MODES

- 24-bit / 192 kHz 2x4 USB-C audio interface
- Three USB recording modes: Standard (include FX), Loopback (include computer audio) and Interface (channels 1-2 dry)
- Dedicated USB 1-2 playback with blend control for monitoring computer output and a latency-free feed from the mixer
- Separate USB 3-4 return on channel 7/8, perfect for playing software instruments and overdubbing
- Waveform OEM™ recording software included

PROFX10GO

10-CHANNEL BATTERY-POWERED MIXER
